

Call for Papers

CES Transactions on Electrical Machines and Systems (*CES TEMS*) is an international quarterly journal, which is published by the China Electrotechnical Society (CES) and the Institute of Electrical Engineering of the Chinese Academy of Sciences, and technically co-sponsored by IEEE Power Electronics Society (IEEE PELS). The *CES TEMS* will be published in IEEE Xplore and be submitted to EI Compendex.

CES TEMS aims to establish a high-end academic communication platform to present the latest R & D achievements in the fields of electrical machines and systems in a timely fashion, and to attract the relevant researchers and professionals from all over the world to exchange technical information and experiences.

CES TEMS will publish original peer-reviewed technical and review articles covering a broad range of topics related to electrical machines and systems, including but not limited to: design, implementation and integration of

- high performance electric machines
- motor drives
- power electronics and its applications
- efficient energy conversion
- motion control and servo systems
- photovoltaic power generation
- wind power
- reliability and fault diagnosis
- magnetic field analysis
- new material applications
- electromagnetic compatibility
- electrification of transportation

All manuscripts should be submitted through the *CES TEMS* Manuscript Central at <https://mc03.manuscriptcentral.com/tems> or the Journal's website www.cestems.org.

Details of submission guideline and the template can be found at www.cestems.org.

All papers will be peer-reviewed by 3 independent reviewers.

Requests for additional information should be addressed to the Deputy EIC or Guest EIC.
